**Subject:** RE: Scope of work for CFAC.  
**Attachments:** rifsovstatementofwork(CFAC)r1.doc

My comments on the SOW are embedded in the attached word document. Called Dan Wall to discuss some issues as they pertain to Tasks 4 and 7 of the SOW. I left you a message on your cell phone based on that discussion proposing that we have a meeting with you, me Dan and Susan Griffin next week. The purpose of the call is to ensure everyone is on board that the data being collected will meet the needs of the risk assessment and to determine the schedule for the RI and the remaining period of performance on CDM's RAC contract. This schedule will be important in the development of the HHRA and BERA for the site. We should also talk about your thoughts on whether or not you will be breaking the site into discrete geographic or media specific operable units for better site management.

Give me a call when you get a chance and I will set up a call with everyone through our outlook calendars.
